Hyundai KONA Electric

Driving range of up to 619 km.

Free charging station and installation.

Abstract for promotional use only. Full version available at www.iesepublishing.com

The **Hyundai Kona electric** is the perfect car to get you moving freely around any city. In addition to its urban calling, it has an incredible **range of up to 619 km**. Thanks to **smart tech**, you will always feel safe and connected, no matter where you are. What's more, to make it even easier to get the most out of your Kona Electric, **Hyundai includes the charging station and its installation free of charge**.

#NextAwaits

Zero emissions label.

Hyundai KONA EV Range: Combined CO₂ emissions (g/km): 0 during use. Electrical consumption (Wh/km): 150 (39.2 kWh battery) – 154 (64kWh battery). Combined driving range (km)* of 449 (64kWh battery) and in the city (km)*: 619 (64kWh battery).

Model shown: KONA Electric Style. Servicing linked to vehicle financing. The 5-year unlimited mileage warranty; the 8-year or 200,000 km warranty (whichever comes first) for the high-voltage battery of MY19 versions, and the 8-year or 160,000 km warranty (whichever comes first) for the high-voltage battery of MY20 versions offered by Hyundai Motor España S.L.U. to its end customers is only applicable to Hyundai vehicles sold originally by the official Hyundai dealership network, according to the terms and conditions of the service passport. Consult the conditions of the offer, servicing and warranty in the Hyundai dealership network or on www.hyundai.es (*Official driving range in accordance with WLTP New Driving Cycle. The real-life range will depend on driving styles, variations in weather, road condition, and use of air conditioning or heating.)
